

RELEASE

SDP Industrial Corporation (SHANGHAI) Ltd. products now available

We are pleased to inform you that we start distributing products
from SDP Industrial Corporation (SHANGHAI) Ltd.

5-phase stepping motor driver

iD543-T

- Power supply: DC24V-48V
- Motor drive current: 0.35-2.4A/phase
- 8 current options
- 32 microstep options
- Pulse & direction, CW/CCW
- Photoelectric isolated input function
- Exquisite design, low noise, low vibration

**Best solution for
“KR-A5M”
replacement**

2-phase stepping motor driver

iD232-T8

- Power supply: DC24V-36V
- Motor drive current: 0.3-2.2A/phase
- 8 current options
- 8 microstep options
- Pulse & direction, CW/CCW
- Automatic fault detection
- PWM constant current bipolar microstep drive
- Photoelectric isolated input function
- Motor short-circuit protection function
- Exquisite design, low noise, low vibration

We also offer various products, including multi-axis models and network-compatible products. Please feel free to contact us for more information on specifications and pricing.
